

**CHAMBER
LOW CARBON**
HELPING BUSINESSES GO GREEN & ACHIEVE NET ZERO

Fylde Council launches

CARBON REDUCTION BUSINESS SUPPORT PROGRAMME

with Chamber Low Carbon

Helping Fylde to reach Net Zero

Chamber Low Carbon is working in partnership with Fylde Council to deliver this business support programme: The event will provide advice on Energy Efficiency, Cost Reduction, Carbon Reduction Plans plus what Net Zero advice and bespoke support is available to the business community.

The Council are working towards Net Zero from within and has introduced new incentives for both businesses and residents.

A partnership of North & Western Lancashire Chamber of Commerce, East Lancashire Chamber of Commerce and Industry and BOOST are supporting Fylde businesses in saving money, reducing their carbon footprint, stimulating low carbon innovation, and achieving their Net Zero Carbon ambitions.

**Funded by
UK Government**

boost
Lancashire's Business
Growth Hub

This UK government-supported programme is committed to the provision of a suite of FULLY FUNDED services aimed to help Fylde businesses improve energy and environmental efficiencies, introduce opportunities for onsite renewable energy generation, and save money.

ELIGIBILITY – businesses of any size, (*based in Fylde*), signing up to the programme are entitled to fully funded support in environmental and energy saving/efficiency good practice, developing Net Zero targets, Carbon Reduction Plans, and guidance on low carbon technology adoption. The support will be delivered via a suite of events, masterclasses and 1-2-1 bespoke support.

This support is available even if you have already had support through previous European Union part-funded programmes.
